Rogue Valley Kennel Club invites you to join us for an all day seminar.

Dogs will do almost anything we ask of them. The question is do we ask them to do things that they are structurally capable of performing without breaking down? Whether you and your dog(s) compete in conformation, performance events or for space on the couch, you won't want to miss this wonderful opportunity to join Pat Hastings in Southern Oregon for an educational, hands-on one day seminar about the value of structurally evaluating *all* dogs. A litter of puppies will be reviewed to highlight the presentation points.

AGENDA

- How to evaluate the structural quality of puppies
- The basics of canine structure
- The weakest links to look for
- How to evaluate the structural quality of your adult dog
- What your dog can do and should not be doing
- Questions and hands-on work with 7-9 individual adult dogs
- If you'd like to volunteer your dog to be evaluated at the seminar, Contact Michelle at michelleobt@gmail.com
